SUBJECT LISTING

Forecasting

KELLY, Derek, "The Principle of Complex Demand," Second Quarter, pp. 115-120.

Production Planning, Control, and Scheduling

ASHTON, F. Alex, "Master Production Scheduling for Original Equipment Automotive Suppliers," Fourth Quarter, pp. 71-82.

BECHTOLD, Stephen E. and SCHOWALTER, Michael J., "Simple Manpower Scheduling Methods for Managers," Third Quarter, pp. 116-133.

CHRISMAN, James J., "Basic Production Techniques for Small Manufacturers: III. Production Planning, Control, and Scheduling Methods," Fourth Quarter, pp. 14-26.

COKER, Jerry L., "Analyzing Production Switching Heuristics for Aggregate Planning Models via an Application," Fourth Quarter, pp. 1-13.

FULLER, Thomas H., Jr., "Master Production Scheduling on a Microcomputer," First Quarter, pp. 111-123.

LAMBRECHT, Marc and VAN DEN WIJNGAERT, Freddy, "A Microcomputer System for MRP and Scheduling in Essochem," Fourth Quarter, pp. 59-70.

PLENERT, Gerhard, "Are Japanese Production Methods Applicable in the United States?" Second Quarter, pp. 121-129.

SOUTH, John B., "Continuous Excess Capacity Versus Intermittent Extra Capacity to Control Average Queue Size in a Random Environment," First Quarter, pp. 103-110.

WACKER, John G. and LUCHT, Dale, "Effective Dispatch Rules to Improve Performance in Job Shops," Third Quarter, pp. 77-87.

WILSON, Glenn T., "Kanban Scheduling—Boon or Bane?" Third Quarter, pp. 134-142.

Inventory Management, Planning, and Control

ANTON, Charles J. and MALMBORG, Charles J., "The Integration of Inventory Modeling and MRP Processing: A Case Study," Second Quarter, pp. 79-90.

BERNARD, Paul A., "Cycle Counting," Fourth Quarter, pp. 27-41.

BRAUER, David C., "The Effect of Lead Time and Service Level on Safety Stock for a Continuous Review Inventory System with Independent Demand," Second Quarter, pp. 146-151.

CANTWELL, Jim, "The How and Why of Cycle Counting: ABC Method," Second Quarter, pp. 50-54.

CHRISMAN, James J. and CHRISTY, David P., "The Master Material List: A Useful Complement to Bills of Materials," Second Quarter, pp. 36-49.

CHRISMAN, James J., "Basic Production Techniques for Small Manufacturers: II. Inventory Control Methods and MRP," Third Quarter, pp. 48-64.

DAVIS, Ginger M., "Improving Work-in-process Inventory Accuracy in the Process Industry," Second Quarter, pp. 91-104.
LOWERRE, William M., Jr., "Protective Scheduling Smoothes Jittery MRP Plans: Buffer Forecast Error the Key," First Quarter, pp. 1-21.
THOMPSON, Gary L., "Controlling Inventory Levels with the Budget Plan: A Macro Model," Third Quarter, pp. 40-47.
THOMPSON, Richard L., "How to Achieve and Maintain Inventory Accuracy," First Quarter, pp. 38-45.

Just-in-time, Zero Inventory

BERNARD, Paul A., "On-line MRP, A Hybrid Concept," Third Quarter, pp. 24-39.
ESROCK, Yale D., "The Impact of Reduced Setup Time," Fourth Quarter, pp. 94-101.
HUANG, Philip Y. and HOUCK, Bradford L. W., "Cellular Manufacturing: An Overview and Bibliography," Fourth Quarter, pp. 83-93.
KRUPP, James A. G., "Reconciling Quality Control Sampling Plans and Zero Inventories," Third Quarter, pp. 143-148.
PLENERT, Gerhard, "Are Japanese Production Methods Applicable in the United States?" Second Quarter, pp. 121-129.
WILSON, Glenn T., "Kanban Scheduling—Boon or Bane?" Third Quarter, pp. 134–142.

Lot Sizing

AUCAMP, Donald C., "A Variable Demand Lot-sizing Procedure and a Comparison with Various Well-known Strategies," Second Quarter, pp. 1-20.
FORDYCE, James M. and WEBSTER, Francis M., "Nonconstant Unit Cost-Price with the Wagner-Whitin Algorithm," First Quarter, pp. 71-80.
KRUPP, James A. G., "Reconciling Quality Control Sampling Plans and Zero Inventories," Third Quarter, pp. 115-126.
LaFORGE, R. Lawrence and PATTERSON, J. Wayne, "Adjusted Part-period Algorithm," First Quarter, pp. 138-149.
MATHER, Hal F., "Dynamic Lot Sizing for MRP: Help or Hindrance?" Second Quarter, pp. 29-35.
NANDAKUMAR, G., "Lot-sizing Techniques in a Multiproduct Multilevel Environment," First Quarter, pp. 46-54.
SPRAGUE, Linda F. and THOMAS, Hugh, "Lot-sizing Methods in China," Second Quarter, pp. 105-114.
TERSINE, Richard J. and TOELLE, Richard A., "Lot Size Determination with Quantity Discounts," Third Quarter, pp. 1-23.

Materials Requirements Planning

ANTON, Charles J. and MALMBORG, Charles J., "The Integration of Inventory Modeling and MRP Processing: A Case Study," Second Quarter, pp. 79-90.

BERNARD, Paul A., "On-line MRP, a Hybrid Concept," Third Quarter, pp. 24-39.
BLACKSTONE, John H., Jr., and COX, James F., "MRP Design and Implementation Issues for Small Manufacturers," Third Quarter, pp. 65-76.
